### Child Safety

Let's face it, times have changed. The danger of a child being lost or abducted is a very real and disturbing concern for parents today. The 2011 FOMOTC state convention presents a powerful and informative parent workshop by Ident-A-Kid Program Director and Child Rescue Network Specialist, Liz Ramon. This workshop includes vital childhood safety issues such as abduction prevention, identifying personal threats, stranger myths, the latest predator lures and more. This is a program about getting active and empowering children. We will be educating parents on how to identify threats, avoid unsafe situations, and how to teach these same skills to their children. It's a workshop that can save your child's life.

## Session 2

### Coupon Class

Same as above being offered a second time. Cost \$10.00
